WHAT'S INCLUDED

Everything you need to launch professionally without unnecessary complexity.

Custom Business-Focused Design

Engineered specifically for your brand, target customers, and operational focus.

Mobile, Tablet & Desktop Responsive

Works effortlessly across every modern device and viewport.

Contact & Enquiry Features

Visible phone, email, contact forms and WhatsApp buttons on every page.

Google Maps Integration

Interactive location maps so customers easily find your physical facility or service area.

Social Media Integration

Direct connectivity to your LinkedIn, Facebook, Instagram or business profiles.

SSL Security Certificate

Full HTTPS encryption included from day one for visitor trust and search ranking.

1-Year Domain & First-Year Hosting Included

We coordinate domain registration and host your site on high-speed servers.

THE CORE WEBSITE STRUCTURE

A clear five-page structure that customers expect to find when they look you up.

01 Home Page

Your first impression: who you are, what you offer, and why clients should choose you.

02 About Page

Your story, team, company background, and credibility proof.

03 Services Page

The core services you offer, clearly explained with transparent details.

04 Fleet / Equipment Page

Where applicable — showcase your physical vehicles, machinery, or tools.

05 Contact Page

Phone, WhatsApp, email, interactive Google map, and simple enquiry form.

GETTING IN TOUCH

Turn website visitors into enquiries.

Frictionless Contact Routing

The website is structured to make it easier for potential customers to take the next step — call, message or send an enquiry.

Click-to-Call Buttons

One-touch dialing for smartphone users seeking fast quotes or immediate service.

WhatsApp Connectivity

Direct chat integration for real-time messaging with your dispatch or sales team.

Notice on Expectations

We do not guarantee leads or customers. We build the clean structure that makes it simple for people to reach you.

PRESENTATION

Make your business look established.

Consistent Visual Branding

Your website presents your business the way customers expect to see it — clear, professional and consistent across every page.

Company Information & Service Areas

Detailed regions, cities, and operational boundaries so prospects know you can serve them.

Credibility from the First Visit

Clean typography and structured white space that elevates your market reputation.

FOUNDATIONS

Built with the right technical foundations.

Search-Ready Architecture

SEO-friendly page structure, clean URLs, and fast loading speeds.

Meta Titles & Descriptions

Accurately labeled pages so Google search results display professional snippets.

Image Optimization & Alt Text

Compressed images with descriptive accessibility labels for search indexing.

XML Sitemap & Google Indexing

Structured sitemap generated and formatted for search engine crawler discovery.

SETUP & LAUNCH

From setup to launch — handled for you.

Domain & DNS Configuration

We connect your domain records accurately to ensure zero downtime.

Comprehensive Quality Assurance

Forms, links, mobile layout, and browser compatibility tested before go-live.

Social Sharing (Open Graph)

When your link is shared on WhatsApp, LinkedIn or iMessage, a clean preview card appears.

SIMPLE, STRAIGHTFORWARD PROCESS

Four steps from first message to a live website.

01 Share Your Details

Logo, images, content, services, and business information.

02 Design & Build

Your pages are custom designed and coded around your business.

03 Review & Revise

You send one consolidated round of requested adjustments.

04 Launch

Domain connection, SSL activation, and launch support. Delivery in 3–5 business days.

OWNERSHIP & SUPPORT

Your business. Your website.

100% Client Ownership

Clear, simple terms — no complicated legal language. The website and domain belong to your business.

30 Days Post-Launch Support

Included free technical support for adjustments and post-launch stability.

Optional Maintenance (\$199/yr)

Available for routine updates, text edits, security monitoring and backups.
