01 — WHO WE ARE

Your website is often the first impression of your business. Make it count.

Who We Are

Wal Groups is a business services company providing professional website development and digital solutions for businesses in the USA, Canada, the UK, Australia and worldwide.

Before a customer calls, requests a quote or sends an email, they usually look you up. What they find shapes whether they trust you — and whether they reach out at all.

Our Focus

We build websites that present your business clearly and professionally, so the people looking for your services can understand what you do and contact you without friction.

We have particular experience with trucking, transportation and logistics businesses — and we build for companies across many other industries too.

01 Look Professional

A credible, well-designed presence that reflects the quality of your work.

02 Explain What You Do

Clear services, service areas and information customers actually look for.

03 Make It Easy to Contact You

Calls, forms, email and WhatsApp — visible on every page, on every device.

02 — WHAT WE BUILD

Professional Business Website Development tailored to your business requirements.

Credibility

Look established and trustworthy from the very first visit.

Professional Presentation

Clean design and structure that reflects the quality of your work.

Mobile Experience

Built to work smoothly on phones, tablets and desktops.

Clear Services

Customers quickly understand what you offer and where.

Contact Opportunities

Call, email, form and WhatsApp options that are easy to find.

Conversion-Focused Structure

Pages that guide visitors toward making an enquiry.

03 — WHY WAL GROUPS?

Professional quality without unnecessary complexity or inflated pricing.

01 Industry Understanding

We understand trucking, transportation, logistics, Amazon DSP/AFP operations and small-fleet businesses.

02 Custom Website Design

Every site is designed around your business, services, fleet, target customers and goals.

03 Transparent Pricing

Clear packages with straightforward pricing and no unnecessary complexity.

04 Complete Website Setup

Design, development, responsive setup, domain configuration, hosting coordination and launch support.

05 Lead-Focused Design

Clear calls-to-action, contact forms, phone buttons and enquiry options.

06 Direct Communication & Full Ownership

Direct team access with no middle layers. You retain full ownership and control.

04 — INDUSTRIES WE SERVE

Built for businesses across industries — with particular experience in transportation.

Primary Specialization: Transportation & Logistics

- Trucking & Transportation fleets
- Logistics & Freight Forwarding companies
- Towing & Roadside Services
- Amazon DSP & Delivery Businesses

Construction & Property

General contractors, commercial builders, real estate, and property services.

Automotive

Auto repair, fleet maintenance shops, mobile detailing and commercial body shops.

Healthcare & Medical Services

Clinics, diagnostic centers, medical waste transport, and wellness providers.

Home & Local Services

Plumbing, electrical, HVAC contractors, landscaping, and local service trades.

05 — TRANSPORTATION SPECIALIZATION

Websites structured around how transportation businesses actually operate.

Trucking & Fleet Businesses

Owner-operators, small & mid-size fleets, regional carriers, and dedicated lane operators.

Amazon Transportation Partners

Amazon DSPs, Amazon AFPs, and delivery/last-mile operations.

Freight Logistics & Operations

3PL companies, logistics brokers, independent dispatchers, and fleet managers.

Sections We Build for Transportation

- Services & Freight Types (Dry Van, Reefer, Flatbed, Dedicated Lanes)
- Fleet & Equipment specifications
- Service Areas & Regional Lanes
- Driver Recruitment & online applications
- Quote Requests & Load Capacity
- Safety, DOT compliance & insurance credentials
- Click-to-call direct dispatch lines

Objective Recommendations

Send us your current website. We will provide objective recommendations on whether improving or rebuilding is more practical and

15 — FREQUENTLY ASKED QUESTIONS

Common questions, straight answers.

How much does a website cost & how long does it take?

Packages start at \$399 up to \$1,499+. Timelines range from 3-5 days for Starter, 5-7 days for Business, 7-10 days for Growth, and 10-15 days for Enterprise.

Are hosting and domain included?

Yes. First-year hosting and 1-year domain registration are included with standard packages.

Can I use my existing domain & will I own the site?

Yes. We assist with connecting existing domains. Once fully paid, you retain full ownership of your site and domain. We never lock you into a contract.

Do you guarantee Google rankings?

No. We provide solid SEO foundations (meta tags, sitemaps, speed, schema), but legitimate providers cannot guarantee specific rankings.

16 — READY TO BUILD YOUR WEBSITE?

Tell us about your business and we'll help determine the right solution.
